GARANZIA DIECI ANNI
Struttura e molleggio.
La struttura è in metallo verniciato e il molleggio in acciaio armonico, ideale per la giusta elasticità dell'intera seduta.
Sono garantiti 10 anni.

10-YEAR GUARANTEE
Frame and suspension.
The painted metal frame and the spring in music wire create the perfect springiness of the entire seating area.
Guaranteed for 10 years.

GARANTIE DIX ANS
Structure et suspension.
La structure est en métal laqué et la suspension en acier harmonique garantissent une bonne souplesse à toute l'assise.
Garantis 10 ans.

ZEHN JAHRE GARANTIE
Korpus und Federung.
Der Korpus ist aus lackiertem Metall und die Federung aus Federstahl, ideal für die richtige Elastizität der ganzen Sitzfläche.
10 Jahre Garantie.

IMBOTTITURA
L'intera struttura metallica viene poi rivestita in poliuretano espanso a quote differenziate e braccioli schiumati a freddo, successivamente foderata con una calza in poliuretano espanso e tessuto acrilico tale da permettere la completa vestibilità.

PADDING
The entire metal frame is covered in different density polyurethane foam and the arm rests are padded using the cold-foam injection process. It is then lined with polyurethane foam and acrylic fibre to ensure that the item is fully padded.

GARNISSAGE
La structure métallique est ensuite recouverte de polyuréthane expansé à cotes différenciées et d'accoudoirs rembourrés avec des mousses à froid, avant d'être revêtue d'une chemise en polyuréthane expansé et en tissu acrylique permettant de la recouvrir entièrement.

POLSTERUNG
Der ganze Metallkorpus wird dann mit Schaum-Polyurethan unterschiedlicher Dichte bezogen und mit kalt geschäumten Armlehnen versehen, anschließend bekommt er einen Überzug aus Schaum-Polyurethan und Acrylstoff, um ihn vollständig zu überziehen.

CUSCINI IN PIUMA
I cuscini sono realizzati in piuma d'oca lavata e sterilizzata in canali trapuntati.

SEAT CUSHIONS AND BACK RESTS IN GOOSE DOWN
Cushions and back rests are filled with goose down which has been washed and sterilized and 'baffled' in quilted sections.

COUSSINS EN PLUME
Les coussins sont en plume d'oie lavée, stérilisée et cloisonnée.

DAUNENKISSEN
Die Kissen sind mit gewaschenen und sterilisierten Gänsedaunen in gesteppten Kanälen gefüllt.

CUSCINI IN PIUMA E POLIURETANO ESPANSO
I cuscini sono costituiti da un nocciolo di poliuretano espanso a quote differenziate e da una trapunta in piuma d'oca lavata e sterilizzata.

SEAT CUSHIONS AND BACK RESTS IN GOOSE DOWN AND POLYURETHANE FOAM
Cushions and back rests are made with a small amount of different density polyurethane foam and a quilted layer of washed, sterilized goose down.

COUSSINS EN PLUME ET POLYURÉTHANNE EXPANSÉ
Les coussins sont constitués d'un noyau en polyuréthane expansé à cotes différenciées et d'un matelassage en plume d'oie lavé et stérilisé.

KISSEN AUS DAUNEN UND SCHAUM-POLYURETHAN
Die Kissen bestehen aus einem Kern aus Schaum-Polyurethan unterschiedlicher Dichte und aus einer gesteppten Abdeckung mit gewaschenen und sterilisierten Gänsedaunen.

CUSCINI IN DACRON
I cuscini sono costituiti da un nocciolo di poliuretano espanso a quote differenziate e rivestiti a falde di fibra acrilica termosaldada con cotone

SEAT CUSHIONS AND BACK RESTS IN DACRON
Cushions and back rests are made with a small amount of different density polyurethane foam and covered with layers of acrylic fibre which is thermally welded with cotton.

COUSSINS EN DACRON
Les coussins sont constitués d'un noyau en polyuréthane expansé à cotes différenciées et recouverts d'ouate de fibre acrylique thermosoudée avec du coton

KISSEN AUS DACRON
Die Kissen bestehen aus einem Kern aus Schaum-Polyurethan unterschiedlicher Dichte und einem Bezug aus mit Baumwolle heißverklebter Acrylfaser.

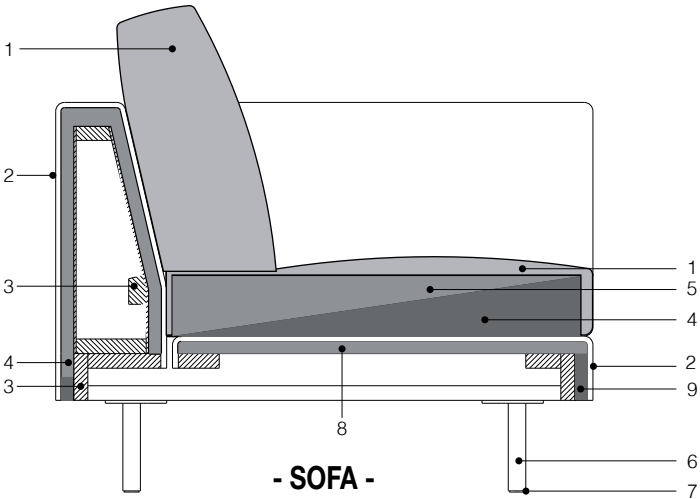

FODERA
Ed ecco come restano quando li "spogliamo". Gli imbottiti Bosal vengono completamente foderati con un "vestito" in tessuto 100% cotone.

LINING
And this is how they look when we "undress" them. Padded furniture by Bosal is completely lined with a "dress" in 100% cotton.

HOUSSE
Voilà comment ils se présentent quand on les "deshabille". Les meubles matelassés Bosal sont entièrement doublés d'un "vêtement" en tissu 100% coton.

INNENSTOFF
Und so sind sie, wenn wir sie "ausziehen". Die Polstermöbel von Bosal werden komplett mit einer "Verkleidung" aus 100% Baumwollstoff bezogen.

Struttura:
in acciaio imbottita in schiuma poliuretanic
a quote differenziate e rivestita con tessuto
protettivo accoppiato.
Cuscini volanti:
in poliuretano espanso e fibra;
bottoni in madreperla.
Piedi:
piedi in legno massello frassino tinto noce.
Rivestimento:
tessuto o pelle.
Svestibilità:
totale.
Nota:
con l'uso la piattaforma della seduta
assumerà un aspetto più morbido e
vissuto. Quindi il presentarsi di una leggera
ondulazione dell'abito è da considerarsi
assolutamente normale.

Structure:

mother of pearl buttons.
Feet:
feet in solid ash in a walnut stain.
Upholstery:
fabric or leather.
Covers:
fully removable.
Note:
over time the seating will become softer and
more "lived-in". Therefore a slight undulation
of the covering is perfectly normal.

Per la normale pulizia spolverare con un panno morbido e asciutto. Eventuali macchie si possono eliminare trattandole con un panno o cotone idrofilo umido, e prodotti per la pulizia più delicati quali sapone neutro o latte detergente. Asciugare immediatamente dopo il trattamento. Evitare di strofinare la superficie da trattare, ma tamponare, dai bordi verso il centro della macchia. Non usare mai prodotti abrasivi o aggressivi quali solventi o smacchiatori. Non usare mai il vapore. Non utilizzare prodotti per la pulizia delle scarpe. In ogni caso, quando si utilizza un prodotto nuovo per la pulizia, è sempre bene applicarlo in una zona "nascosta", per verificarne l'efficacia ed evitare l'eventuale danneggiamento in zone più esposte. Se possibile consultare il produttore.

For regular cleaning dust with a soft and dry cloth. Stains can be treated with a wet cotton or wool cloth and with specific delicate products for cleaning such as neutral soap or cleaning milk. Avoid to rub surface to treat, and start from edge of stain toward to centre. Dry immediately after treatment. Never use abrasive or aggressive products like solvents, stain removers and so on. Never steam it and do not use shoe polish products. In any case when you try to clean off stains, apply the cleaning product first in a hidden area to test its effectiveness and to avoid damages in more visible parts. Eventually we suggest to ask supplier providing specific information about kind and origin of stains.

ATTENZIONE: sulla pelle eventuali imperfezioni del fiore, oppure graffi, rughe o piccole cicatrici, non devono essere considerati difetti, bensì peculiarità che ne attestano la genuinità e ne esaltano la naturale bellezza. Questo tipo di pelle è particolarmente naturale e priva di trattamenti antiassorbimento e antigraffio: quindi, nel tempo, evidenzierà tutti i segni del “vissuto”.	ATTENTION: flaws in the grain of the leather, scratches, wrinkles and small scars are not defects but characteristics revealing the natural beauty of the leather. This type of leather is particularly natural and has not been treated against absorption and abrasion, so by simple use of the armchair or sofa, it will acquire a “lived-in” look.

Art de Färbung: Anilinfärbung in der Flotte. Endzurichtung: Semi-Anilin. Farbe: Der Farbton kann manchmal leichte Abweichungen bezogen auf das Muster aufweisen.
Cuir A Épaisseur: 1,2 - 1,3 mm. Type: Fleur rectifié. Origine: cuir bovin européen. Tipo de teinture: à l'aniline dans un tonneau. Type de finition: pigmentée. Coloris: la nuance peut parfois être légèrement différente de celle du catalogue.	Leder A Dicke: 1,2 - 1,3 mm. Typ: Behandelte Narbenseite. Herkunft: Europäische Kuhhäute. Art de Färbung: Anilinfärbung in der Flotte. Endzurichtung: pigmentiert. Farbe: Der Farbton kann manchmal leichte Abweichungen bezogen auf das Muster aufweisen.

Pour l'entretien normal, dépoussiérer avec un chiffon doux et sec. Éliminer les taches éventuelles en les traitant avec un chiffon (ou du coton hydrophile) humide et un produit délicat tel que du savon neutre ou du lait détergent. Essuyer tout de suite après le traitement. Ne pas frotter la surface à traiter mais la tamponner, des bords vers le centre de la tache. Ne jamais utiliser de produits abrasifs ou agressifs tel que du solvant ou du détachant. Ne jamais utiliser le vapeur. Ne pas utiliser de produit pour nettoyer les chaussures. Au moment d'utiliser un nouveau produit de nettoyage, il convient de toujours faire un essai dans un coin pour voir s'il est efficace et éviter éventuellement d'abîmer le cuir dans une zone plus exposée. Consulter le fabricant si possible.

Für die normale Reinigung mit einem weichen und trockenen Tuch abstauben. Flecken können bei Bedarf mit einem feuchten Tuch oder feuchter Watte und schonenden Reinigungsprodukten wie Neutralseife oder Reinigungsmilch entfernt werden. Sofort nach der Behandlung trocknen. Die zu behandelnde Oberfläche nicht abreiben, sondern nur betupfen, und zwar vom Rand zur Mitte des Flecks hin. Niemals scheuernde oder aggressive Produkte wie Lösemittel oder Fleckenreiniger verwenden. Niemals mit Dampf behandeln. Keine Produkte zur Schuhreinigung benutzen. Sollten Sie ein neues Reinigungsmittel benutzen, dann benutzen Sie es zuerst an einer “versteckten” Stelle um die Wirkung zu prüfen und ggf. eine Beschädigung an sichtbarer Stelle zu vermeiden. Wenn möglich, den Hersteller konsultieren.

ATTENTION: les imperfections éventuelles de la fleur, les rayures, les rides ou les petites cicatrices sur le cuir ne doivent pas être considérées comme des défauts mais comme des caractéristiques qui en attestent la qualité et en exaltent la beauté naturelle. Ce type de cuir est tout à fait naturel et sans traitements anti-absorption et anti-rayures: il montrera donc tout les signes typiques du “vécu” avec le temps.	ACHTUNG: Auf dem Leder gelten ggf. vorhandene Unregelmäßigkeiten der Narbenseite oder Kratzer, Falten oder kleine Risse nicht als Defeckt, sondern als Besonderheit, die die Naturbelassenheit bezeugen und dessen natürliche Schönheit betonen. Diese Lederart ist besonders natürlich und wurde nicht gegen Absorbierung und Kratzer behandelt. Sie wird also im Laufe der Zeit ein typisches “gelebtes” Aussehen annehmen.
